ADDITIONAL CATEGORIES OF ARTICLES

Compiler's Note: If you are a newcomer to Theosophy, and you haven't already read the first 166 compiled articles that make up the sequentially-important Introductory "Setting the Stage" book on this web site, I highly recommend that you read that first, in order to get well-grounded as to what true and undistorted Theosophy actually is. But if you decide to begin here, keep in

mind that it will be to your benefit to eventually read the book in this "Volume 1--> Setting the Stage" link (a link that is found at the bottom of every page on this web site).

I'm slowly scanning, proofreading, and adding more articles to this INDEX page. Most of the many series and groupings of articles in the various categories listed below are finished. Those that aren't are easy to spot because they have the number of finished articles and the word **NEW!** printed in **red** [the latest articles in each of the two sections that I'm working on, numbers **(12)** and **(13)**, the links to which are found just below, were done on **April 10th**, **August 23rd**, and **September 18th** of **2004**]. Everything else that has recently been finished, or added to this page, has the word **NEW!** printed in **blue**, along with the date posted here (I delete this word and date from most items after about 90 days). Between the "Book" and this "Additional" section, there are now a total of **1,488** finished articles from back issues of THEOSOPHY magazine on this web site. **Technical note**: Because I sometimes don't see the new things that I add to this page until I click on the "Reload" button, I suggest that you consider clicking on your system's **Reload** or **Refresh** button from time to time in order to make sure this page is up to date.

NINE GROUPINGS OF ARTICLES FOR YOUNG PEOPLE & ADULTS -- MOST OF WHICH ARE IN "QUESTION & ANSWER" FORMAT

(NEW!) During the particular years that each of these nine departments from THEOSOPHY magazine were current, which I've provided next to their names, an article from them was presented in each monthly issue (with a few exceptions here and there), along with the many other articles and departments in each issue. The 9th one is a current department in the magazine. **NEW!==>An important consideration for adults:** Concerning the level and quality of material that is contained within them, it would be a mistake to assume that you might as well pass up the groupings that have the words "Youth" and "Student" in their headings.**<==NEW!** I change the **red** colored numbers of the finished articles in each category as I do them, as well as this number: A total of **223** articles are now finished, out of about **865**.

(9) Facets of Inquiry
(since 1999) (**25** have so far been published, and finished.)

SOME OF THE HISTORICAL INTERNAL PROBLEMS OF THE

"Take Every Stone The Bigots of This World Cast Against You, And Use Them To Build My Church In This World. And when they seek to oppress you And when they try to destroy you,
Rise and Rise again and again Like The Phoenix from the ashes Until the Lambs have become Lions and the Rule of Darkness is no more" - Maitreya - The Holy Book of Destiny

MODERN THEOSOPHICAL MOVEMENT ITSELF -- SINCE 1875

Compiler's note: The articles presented in this section are offered so that all present-day Theosophists, from all organizations, and from none, can understand, along with all of humanity, some of this history -- so as to learn from it and then put it aside from a practical working-together point of view. Why? So that the wisest and most knowledgeable members from within all of the groups can now come together and present a "United" front of pure, undistorted, and undiluted Theosophy to humanity that can always hold its own under the welcomed and tough scrutiny and investigation of all scientists, scholars, teachers, philosophers, thinkers, religionists, and historians of this world. How? For starters, as proposed in the right-hand column of the "**Main Page**" and in the continuing "**Introductory Brochure**" link. Both links are found at the bottom of every page on this web site.
It is highly recommended that you read these three very important series of articles in the *Sequence presented* in order to get the best and most accurate picture of this history as it unfolds chronologically:

The Theosophical Movement
(34-part series: 1920-22)

NEW!==>[**Note:** For those of you who have already read this whole series, I want you to know that on **May 24, 2003**, long after I originally finished proofreading and posting it here, I ran into a 1-page "Correction" article to an item in the 34th concluding article. I put a full copy of it in a footnote at the bottom of the page of that article.]**<==NEW!**

The Rising Cycle (13-part series: 1926-27)

Aftermath (10-part series: 1935)

ON-LINE COPIES OF THEOSOPHICAL BOOKS, ARTICLES BY H. P. BLAVATSKY & WILLIAM Q. JUDGE,

Rise and Rise again and again Like The Phoenix from the ashes Until the Lambs have become Lions and the Rule of Darkness is no more"** - Maitreya - The Holy Book of Destiny

WHERE TO CONTACT THE PUBLISHER & EDITORS
OF ALL THE ARTICLES ON THIS WEB SITE -- AND
LINKS TO THE REST OF THE THEOSOPHICAL MOVEMENT

The Theosophy Company,
the publisher of THEOSOPHY magazine, the source of all of the articles found on this web site, is where you should make contact with the Editors if you want to invite the proposed "United" team of Theosophists, from all Theosophical organizations (and from none), which they will be a part of, to contribute articles into your publication (print or electronic), or if you simply want to begin to explore the possibilities of doing so -- as well as contacting them for any other reason. You can also purchase, from their publications catalog, any of the Theosophical books listed above, as well as many more that are not. And besides pointing to other useful Theosophical resources, they provide links to other organizations, such as Blavatsky Net, where you can also purchase Theosophical publications, and where you can find links to almost all of the articles by H. P. Blavatsky and William Q. Judge; to many if not all Theosophical organizations and associations of students in their "Roadmap of Theosophy" section; to many sources of hard to find information about Theosophy and its history; to various on-line Theosophical magazines; to both the full on-line editions of the same books found above, as well as to many more that are not listed. You will also find on Blavatsky Net a variety of Theosophical discussion and study groups that you can join so that you can ask questions, make comments, or just read what is being said by others.

"PUBLIC & PRIVATE ENTERPRISE DEVELOPMENT FORUM"

(NEW!) In this Economics link (which is the same as the one found at the bottom of every page) is the most updated version of my economic-project proposal to humanity, a practical project to help our suffering world that I personally consider to also be Theosophical. In it you will find a new and unique, but mostly unknown, economic system model that might be able to put an end to involuntary poverty on earth. How? It presents a way to fully finance everything of importance that is needed in every nation. Because of this I truly feel that it's well worth pointing to. Please note that for strategic reasons of wanting it to have the best chance of being accepted by all peoples worldwide, no matter what their religious, philosophical, and scientific beliefs are, and because it officially has nothing to do with the Theosophy and the Theosophical Movement that I present on this site, I've put it on a completely different web site that is named PublicAndPrivateEnterprise.org -- it contains no mention of, or link to, anything on this WisdomWorld.org web site.-- Compiler
